DV90

Dual View Dumper

Rotation for safety.

More legroom and the exit option in both seating directions enable even safer and more efficient application of the machine. Up to 9 tons of payload not only offers plenty of materials handling per trip, but is also optionally supported by a power engine, which noticeably increases the tractive force and power. Additional safety features complete the power: Hill-hold function, seat belt monitoring and many other highlights think before anything can even happen.

Highlights

- Swiveling operator's seat with plenty of legroom
- Seat belt monitoring with start release
- Fold-down armrest for entry and exit from both sides
- Power version
- Hill-Hold function
